

BALA MURUGAN

OBJECTIVE

I'm V. BALAMURUGAN, a curious and motivated 2nd-year Electronics and Communication Engineering student at Mailam Engineering College. My passion lies in technology, coding, and creative problem-solving, with active work in electronics alongside frontend, backend, and UI/UX design. I love building intuitive digital experiences while deepening my understanding of both hardware and software.

ADDRESS

No.6 Marriyamman kovil street,
Salaimadam, Periyathachur (po),
Tindivanam (tk), Villupuram(dt).

PHONE

8056866374

balamurugan77073@gmail.com

PROJECTS

CHEFY

Chefy is a simple web app that suggests recipes based on the ingredients you enter. Just type what you have, and it shows dishes you can cook instantly. It's perfect for saving time and reducing food waste.

NEWS PULSE

A web-based news platform designed to organize news into clear categories such as Entertainment, Education, Sports, World News, and more. The platform ensures a seamless experience for accessing both global and local news in one place.

EDUCATION

Mailam Engineering college , Villupuram.

B.E - Electronics and communication and Engineering.

SKILLS

My tool skills include proficiency in Figma for UI/UX design, Adobe Photoshop for graphic editing, and video editing software for multimedia projects. You're also highly skilled in productivity tools like Microsoft Office, enabling efficient documentation, presentation, and data management.

PROGRAMMING LANGUAGE

My programming skills include HTML, CSS, JavaScript, Python, and C++. I have experience in building web interfaces and a solid understanding of both front-end development and general-purpose programming.
